

Dear Mr. Bevacqua,

You need to adopt a firm deadline to implement Plan B+. B+ is best for regeneration of the wet lands, Wetlands are very important for people!! They keep our drinking water clean and I love my drinking water. I am 21 years old, have lived within 40 miles of Lake Ontario my whole life and hope to someday purchase lake front property but the lake needs the wetlands and the wetlands need B+!! Please protect the lake for everyone not just individual Shoreline owners who care ~~only~~ about ~~themselves~~ themselves and not about anyone else on the lake.

Thankyou so much for your time and effort.

Jess Maggi
